

Questions for the Hare and the Lynx Graph

Hare

Lynx

1. Which animal is the predator, which animal is the prey?

Predator=

Prey=

2. Make a food chain that is 3 living things long. Label the producer, the primary consumer, and the secondary consumer.

Use the Graph of the Hare and Lynx population to answer questions 3-5.

3. Look at the hare Line and make observations of the graph. What is your evidence for that observation?

Observations of Hare Line	Evidence (Numbers from the graph)
1.	1.
2.	2.
3.	3.

4. Look at the Lynx line and make observations of the graph. What is your evidence for that observation?

Observations of Lynx Line	Evidence (numbers from the graph)
1.	1.
2.	2.
3.	3.

5. Look at the Hare and Lynx Line together make observations of the graph. What is your evidence for that observation?

Observations of Hare and Lynx Line	Evidence (numbers from the graph)
1.	1.
2.	2.
3.	3.

6. What can you say about the relationship between the Hare and Lynx population? Use your observations and evidence from above. Write in complete sentences.

7. What other factors might affect the size of the Hare and Lynx Populations?
